JW Player™ Plugin and Module Advanced License

}

The license price that we negociate with our partners is the same of Longtail but include our Advanced Version of our Plugin and module.

By this way **you will have an unbranded player**, It is not the case of all the other module or plugin using this player that you can find on the JED !!

The license is only need for commercial website.

All LongTail Video products require licenses when used commercially, Examples of commercial use include :

- websites with any advertisements
- websites owned or operated by corporations
- websites designed to promote other products, such as a band or artist
